## **Section 1: Entity overview and resources**

### **1.1 STRATEGIC DIRECTION STATEMENT**

The Asbestos Safety and Eradication Agency (ASEA) oversees efforts to prevent exposure to asbestos fibres in order to eliminate asbestos-related disease in Australia.

ASEA works with all levels of government and stakeholders to create a nationally consistent approach to asbestos management and awareness to reduce the risks of asbestos-related disease. ASEA provides a national focus on asbestos issues which go beyond workplace safety to encompass environmental, public health and planning issues. The agency is supported by the Asbestos Safety and Eradication Council, which provides advice and makes recommendations to the agency.

ASEA and the council work towards the achievement of the elimination of asbestos-related disease in Australia by coordinating the National Strategic Plan for Asbestos Management and Awareness (NSP). ASEA is also responsible for the administration of the National Asbestos Exposure Register.

The agency's main functions are to:

- encourage, coordinate, monitor and report on the implementation of the NSP
- review and amend the NSP as required
- publish and promote the NSP
- provide advice to the Minister about asbestos safety
- liaise with Commonwealth, state, territory, local and other governments, agencies or bodies about the implementation of the NSP and asbestos safety, and
- commission, monitor and promote research about asbestos safety.

The elimination of asbestos-related disease is a long-term and complex challenge. The NSP was launched in 2015 and establishes a five-year framework for this work. During 2018–19, ASEA will work with all levels of governments in Australia to coordinate the development of the next phase of the plan.

## 1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

## Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide an entity's complete performance story.

The most recent corporate plan for the Asbestos Safety and Eradication Agency can be found at: [www.asbestossafety.gov.au/national-strategic-plan](http://www.asbestossafety.gov.au/national-strategic-plan).

The most recent annual performance statement can be found at: <https://www.asbestossafety.gov.au/annual-report-2016-17/report-performance/annual-performance-statement>.
