National Strategic Plan for Asbestos Management and Awareness 2014-18

- **Objectives:**
  - Increase awareness about the risks associated with asbestos exposure.
  - Develop and implement comprehensive asbestos management strategies.
  - Support research and education initiatives.

**Key Participants:**
- World Health Organization (WHO)
- Member countries
- Global Asbestos Awareness Day (March 2014)

**Strategic Goals:**
- Reduce asbestos exposure and incidence of asbestos-related diseases.
- Promote the safe disposal and recycling of asbestos materials.

**Advisory Bodies:**
- Asbestos Management Review Report
- Asbestos Safety and Eradication Agency (Australia)
- Asbestos Safety and Eradication Council

**Asbestos Types:**
- Chrysotile
- Amosite
- Crocidolite
- Anthophyllite
- Tremolite

**Relevant Legislation:**
- National Strategic Plan for Asbestos Management (Australia)
- Asbestos Safety and Eradication Act

**Campaigns:**
- Global Asbestos Awareness Day
- National Asbestos Awareness Week

**Information Sources:**
- WHO publications
- National and international asbestos organizations
